## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 41-43 are allowed.

The following is an examiner's statement of reasons for allowance: the examiner agrees with applicant's comments in the response dated 8/22/2006 in that the prior art does not teach a source of positive pressure and the two or more projections moving inwardly relative to the longitudinal axis upon application of a positive pressure between the projections and the rigid outer shield part. The prior art most similar to Cannon applied in the Final Office action dated 4/24/2006 does not teach a source of positive pressure or the application of a positive pressure. The claimed application of a positive pressure is an active process; whereas, any movement by the projections of Cannon after the removal of a negative pressure is only a passive process back to a position at equilibrium.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Catherine S. Williams whose telephone number is 571-272-4970. The examiner can normally be reached on Monday - Friday.
